## Educational background

• <b>Shanghai University</b>	<b>Information Engineering</b>	<b>Master</b>	📅 2023.9-2026.6
------------------------------	--------------------------------	---------------	-----------------

Honors/Awards: First-Class Graduate Scholarship, Top 10% in Major Academic Performance

• <b>Shanghai University</b>	<b>Mechanical Engineering</b>	<b>Bachelor</b>	📅 2019.9-2023.6
------------------------------	-------------------------------	-----------------	-----------------

Honors/Awards: 2019 and 2021 National Encouragement Scholarships, Top 10% in Major

## Experience

• <b>vivo   Imaging Algorithm Research Department   Assistant Algorithm Engineer</b>	📅 2024.3-2025.7
--	-----------------

- Image segmentation algorithm research
- Image matting algorithm research
- diffusion model algorithm research

## Papers

- [ICCV 2025]: A Stable Diffusion-based interactive image matting method that transforms text-driven interaction into visual-prompt-driven interaction
